

Justice™

Justice brings choice for glufosinate-tolerant canola farmers

Justice™ glufosinate delivers strong weed control along with other user friendly and crop safety benefits. Tank-mix Justice with Crimson® and InterLock® to combat issues with hard water and deliver Justice effectively to the weeds you are targeting.

FEATURES AND BENEFITS

- New user-friendly formulation with improved flowability.
- Tested for consistent crop safety in various environmental conditions.
- Glufosinate is contact herbicide, which means coverage is the key to success. Tank-mix with InterLock to improve coverage and canopy deposition.
- Glufosinate can be deactivated by hard water sources. Tank-mix with Crimson or other AMS brands to prevent issues caused by hard water.
- Tank-mixes with Select® and other clethodim or quizalofop brands for enhanced grassy weed control.

For use on:

Canola

Application Timing:

- Apply from the cotyledon stage up until, but prior to, the early bolting stage of canola.
- A second application of Justice herbicide can be made prior to early bolting to fields if new weed germination or growth is present.
 - A first application of up to 1.62 L/ac may be followed by a second application of up to 1.35 L/ac
 - OR
 - A first application of up to 1.35 L/ac may be followed by a second application of up to 1.62 L/ac.
- Do not apply more than a total of 2.97 L/ac per year.

Application Information

Application	Water Volume
Ground	Min. 12 gal/ac (45 L/ac)
Aerial	Min. 6 gal/ac (23 L/ac)

REGION
All
