

# Foaminator™ Dry

## Dry Antifoaming/Defoaming Agent

Foaminator™ is a highly effective concentrated powdered antifoam for use in most agricultural/horticultural spray tanks to eliminate foam.

### PRINCIPAL FUNCTIONING AGENTS:

Dimethylpolysiloxane, polypropylene glycol, silicon dioxide .....	15.0%
<b>CONSTITUENTS INEFFECTIVE AS SPRAY ADJUVANT .....</b>	<b>85.0%</b>
<b>TOTAL.....</b>	<b>100.0%</b>

All ingredients are exempt from the requirements of a tolerance in 40 CFR 180.

### KEEP OUT OF REACH OF CHILDREN

### WARNING

Causes eye irritation. Causes mild skin irritation. May cause respiratory irritation.

### PRECAUTIONARY STATEMENTS

Avoid breathing dust. Use only outdoors in a well-ventilated area. Store in a well-ventilated and locked place.

### STORAGE

Store in cool, dry place. Store in original container. Keep tightly closed. Do not reuse empty container.

### DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Wastes may be disposed of on-site or at an approved waste disposal facility. Triple rinse (or equivalent) adding rinse water to spray tank. Offer container for recycling or dispose of container in sanitary landfill, or by other procedures approved by appropriate authorities. Recycling decontaminated containers is the best option of container disposal.

### FIRST AID

**EYES:** Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. If eye irritation persists get medical attention.

**SKIN:** Take off contaminated clothing and wash before reuse. Rinse skin immediately with plenty of water for 15-20 minutes. Get medical attention if irritation persists

**INHALATION:** Remove person to fresh air and keep at rest in a position comfortable for breathing. Call a poison control center or doctor/physician if you feel unwell.

## **GENERAL INFORMATION**

The use of FOAMINATOR™ can control foaming of spray mixtures. The reduction of foam can decrease mixing and filling times and reduce material loss caused by foaming over of spray tanks. FOAMINATOR® is a concentrated powdered antifoam that eliminates storage and stability problems and ensures foam-free pesticide applications.

### **DIRECTIONS FOR USE** **For Terrestrial Use Only – Not For Aquatic Use**

Use FOAMINATOR™ at the rate of ONE or TWO shakes (0.75-1.5g) per 400 liters of spray solution. Water hardness, temperature and spray tank mixture may call for more or less. Adjust the rate until the desired control is achieved. If mixing products known to foam add FOAMINATOR™ to the partly water-filled tank first and agitate well before adding other products to the spray solution.

FOAMINATOR™ can be introduced through induction systems or through the tank lid opening. FOAMINATOR™ will not interact with any of the chemicals to which it is applied.

If foaming should occur after spray mixture is in tank, FOAMINATOR™ can be applied directly to the surface of the spray solution for fast foam knockdown.

### **Notice of Warranty**

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. SELLER MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, NOR IS ANY REPRESENTATIVE OF SELLER AUTHORIZED TO MAKE ANY SUCH WARRANTY OR MODIFY THESE TERMS. This warranty does not extend to the storage, handling or use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of any such storage, handling or use. Seller shall not be responsible for incidental or consequential damages, if any, resulting from a breach of warranty.
