#### **DIRECTIONS FOR USE**

This product is recommended for correction of copper deficiencies in crops. This product must only be used for corrections of deficiencies as determined by foliar and/or soil testing. It is recommended to apply 560 - 700 ml/ha for crops where the addition of copper would be beneficial. For special inquiries, consult an agricultural representative or a professional agricultural consultant.

**CAUTION:** This fertilizer contains copper and should only be used as recommended. It may prove harmful when misused. Over-application or excessive use of copper, or use on crops other than those listed as having a copper response, can result in copper toxicity and may cause serious crop injury.

Check compatibility with orthophosphates, high potash suspensions and chemical mixtures. Mixing MAX-IN Copper with certain pesticides or adjuvants, especially oil based products can increase the risk of phytotoxicity to sensitive crops in conditions that may increase the activity of the spray solution. Do not mix MAX-IN Copper with pesticides unless potential phytotoxicity can be tolerated.

#### **WARRANTY DISCLAIMER**

Winfield Solutions, LLC warrants only that the chemical composition of this product conforms to the ingredient statement given on the label, and that the product is reasonably suited for the labeled use when applied according to the Directions for Use. SELLER MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, NOR IS ANY REPRESENTATIVE OF SELLER AUTHORIZED TO MAKE ANY SUCH WARRANTY OR MODIFY THESE TERMS. This warranty does not extend to the storage, handling or use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of any such storage, handling or use. Seller shall not be responsible for incidental or consequential damages, if any, resulting from a breach of warranty.
